Applicant's amendment dated July 12, 1999, has been fully considered.

Applicant has added new claims and has argued that these new claims overcome the rejection in the previous Office Action.

It's agreed that this amendment overcomes the rejections based on the prior art. However, it's further noted that a new ground of rejection has been made based on the 35 U.S.C. 112, 2nd paragraph.

The drawings are objected to because they do not show the reference for the mouth in the newly added claims. Please note that this is a critical feature which is required a description in both the specification and drawings.

Claims 6, 9-10, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear from the claim language how the mouth (which is the neck 29) being connected with the intake manifold. In claim 9, lines 7-10, the phrase "an intake manifold... an

internal air inlet for complementally receiving said open mouth" is unclear because from the specification, the neck 29 is connected with the cap 18a.

Claims 6, 9-10, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 1-4, 11-13 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MEP. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
